Submission by Shri Cyriac John regarding the plight of pepper growers

Shri Cyriac John through a submission stated that the Centre's reported decision to import pepper had come as a rude shock to the farmers who were already affected by the imports of coconut oil, rubber, cocoa etc. He wanted the State Government to request the Centre to refrain from this step in the interest of the pepper growers in the State.

The Minister of Agriculture and Social Welfare replying stated that the statement of the Union Minister of State for Agriculture that the Centre proposed to introduce no change in the import policy caused concern among the pepper farmers in the State. She said that there was no necessity of import of pepper while the State had fulfilled its production target fixed for last year. The Central Government was adopting a discouraging policy by more import, to help some big-wigs in the field. As a result, the price of pepper had fallen down. She wanted the problem to be viewed above political consideration. She requested the Centre to allow the Government and the cultivators in the State to implement the perspective included in the Sixth Plan.
